

Pool Finish Color Disclaimer

Wet Edge Technologies™ pool finishes are composed of natural materials that may have certain inherent characteristics. Normal mottling could occur across the surface resulting from differences in moisture content and/or rate of hydration within the matrix of the surface coating. Normal mottled variation, is not considered a failure or defect, but is a normal characteristic of cementitious products.

By its nature, colored pool finishes can accentuate all of the characteristics normally found in cementitious materials. Mottling, explained above, for example, can be more pronounced in colored products than in white. Colored pool finishes may also exhibit pigment stains, streaks, unevenness of color and more noticeable checking and crazing. It's important to note that none of these conditions are considered a deficiency of the product.

Because of these reasons we require the following disclaimer to be signed if you should decide to go with the colored pool finish.

Product Name & Color: _____

Customer Name: _____

Job Address: _____

City, State, Zip: _____

By signing this disclaimer, I am stating that I have read the information listed above regarding colored pool finishes and I am aware of their tendency to accentuate the inherent characteristics of cementitious materials. I will not hold the applicator listed below liable:
