

# THE FUSION OF TECHNOLOGY WITH NATURE

## AQUA PEARL™

### Natural Pebble Pool Finish

Aqua Pearl finishes are blends of specially selected pebble aggregate and fortified white Portland cement. Aqua Pearl combines the proven durability of pebble finishes with the increased smoothness of smaller pebble aggregates. Color fast ceramic pigments offer the customer almost limitless flexibility in poolscape design. Ideal for residential or commercial projects, Aqua Pearl is easily installed but intended for use by professional applicators.

# Benefits

- Unsurpassed proven durability
- Extremely etch resistant
- Colorful, variegated aggregates
- Traditionally or sprayed applied
- Ease of maintenance
